On a private coach, we will travel to Furano. The flower fields of Furano offer a wide variety of flowers from June to September. One of the best spots to see the beautiful flowers against the Tokachi Mountains is Farm Tomita. In addition to flowers, Furano is celebrated for its local wine. Located on a hill overlooking the city, the Furano Winery is open to the public and there are free wine tastings. You can see how local camembert cheese is made at the Furano Cheese Factory. Sample the black cheese, which gets its color from squid ink, and a number of other cheeses at the factory shop. Don't forget to visit the ice cream factory and pizzeria, or participate in one of the many hands-on workshops. In the afternoon, we will proceed to Biei, a small town surrounded by a picturesque landscape of gently rolling hills and vast fields. Visit Blue Pond, then enjoy the beautiful landscapes of Panorama Road from the window. From the Larch tree grove running alongside the hills, to the overlapping layers of hills, the majesty of this landscape unfolds before your eyes. Among the area's highlights is Shikisai Hill, a spacious flower park with various flower fields. Stop by Takushinkan, an exhibition hall with beautiful landscape photography by renowned photographer Maeda Shinzo and his eldest son Akira. The exhibition displays landscape photographs from across Japan with an emphasis on photos from the local Biei region. Tonight, we will stay at the onsen ryokan at Sounkyo Onsen, where you can soak in the therapeutic waters of a spa bath and feast on a traditional Japanese Kaiseki banquet dinner.

Abashiri Prison was constructed in the 1890s to hold more than one thousand dangerous criminals. The prison gained national fame through a popular yakuza movie series by director Ishii Teruo in the 1960s. Following a major modernization of the Abashiri Prison in 1984, the prison's old buildings were moved into the Abashiri Prison Museum, which opened its doors to the public in 1985 as an open air museum. In the morning we will travel to Otaru, renowned for its canals and glassblowing. During the first half of the 20th century, the Otaru Canal was a vital part of the city's busy harbor. The canal allowed large vessels to be unloaded onto smaller ones, then transported to local warehouses. Although the canal became obsolete when modern dock facilities allowed for the direct unloading of large vessels, the canal remains an integral part of the city's history and culture. As part of a citizen's movement in the 1980s, the canal was beautifully restored and former warehouses have been transformed into cafes, restaurants, museums, and shops. Next, we will visit glass workshops and Music Box Museum. In the afternoon, we will visit Sapporo and spend two nights there. The tour includes a visit to the Sapporo Clock Tower and Odori Park, where you can stroll along the promenade and sniff the summer blooms.
